Arthur Miller's 1900 Geology Class outside the Natural Science Building (later Miller Hall)

Dr. Arthur Miller and students, 1901

**DEPARTMENT OF GEOLOGY, ZOOLOGY AND
ENTOMOLOGY**

The Department of Geology, Zoology and Entomology, embracing the larger part of the scientific courses which the University offers, has for its apartment, since the erection of the Agricultural Building, almost the whole of Science Hall. On the first and second floors are lecture rooms, class-rooms and laboratories, while the third floor is occupied by the State Museum, which is of great value to the students of this department. It contains specimens of rare animals and insects and geological formations found in Kentucky.

Other sources of considerable help are the well-equipped laboratories and the lantern and slides with which the lectures are illustrated. Professor A. M. Miller, the Dean of the College of Arts and Science, is the head of this department. He is one of the state's most eminent scientists and is a specialist in the field of geology. He is intensely interested in his work and is still engaged in research work. His activities have been the means of adding much valuable information to the world of science. He is ably assisted by Miss Sue D. McCann, a graduate of State, who has already won fame as an entomologist.

William MacQuown

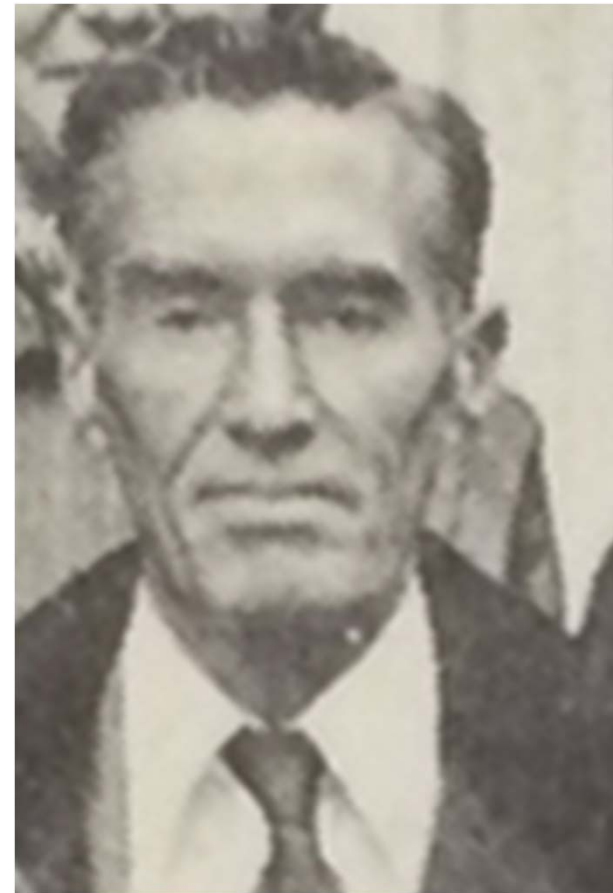

Professor
(1945-47, 1961-1983)

Retired after 22 consecutive
years of service

William R. (Bill)
Brown

Professor
(1946-1984)

Retired after 39 consecutive
years of service

Lynn Jacobsen

Assistant Professor
(1948-1955)

Irving S. Fisher

Professor
(1949-1985)

Retired after 36
consecutive years of
service

Lois J. Campbell

Associate Professor
(1954-1990)

Retired after 36
consecutive years of
service

Vivian Hall

Geology Librarian
(1963-1986)

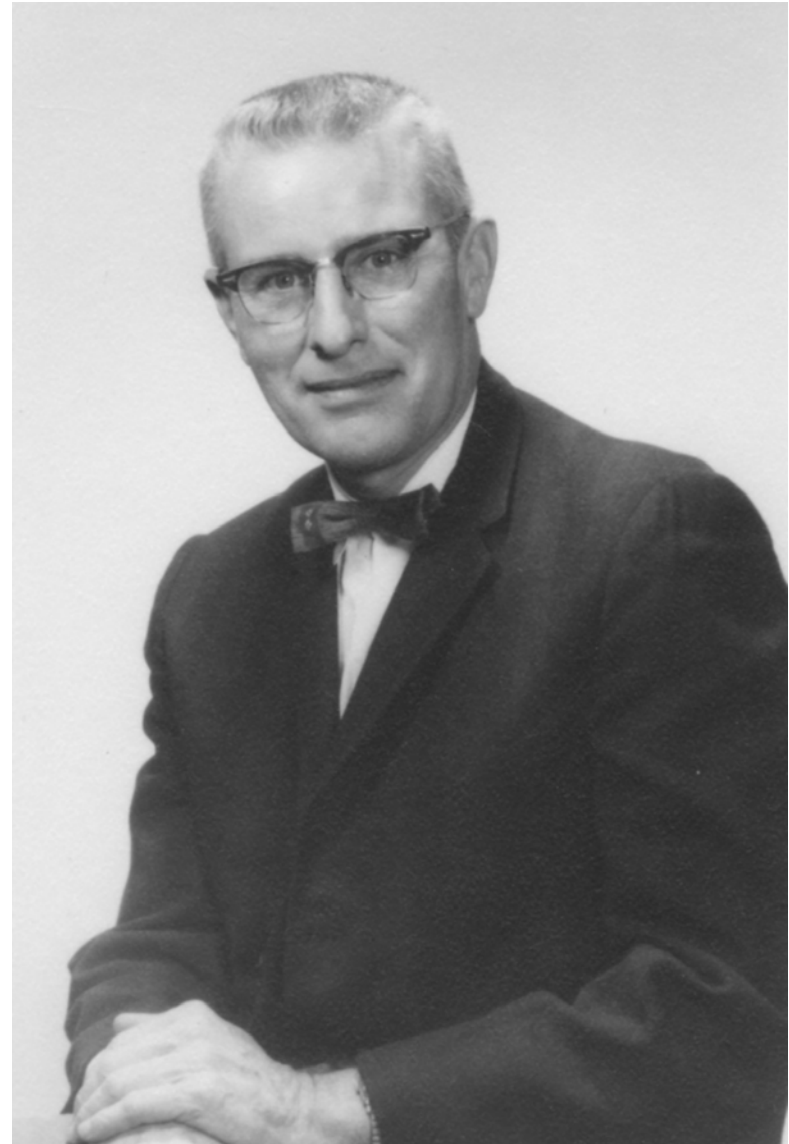

Retired after 23
consecutive years of
service

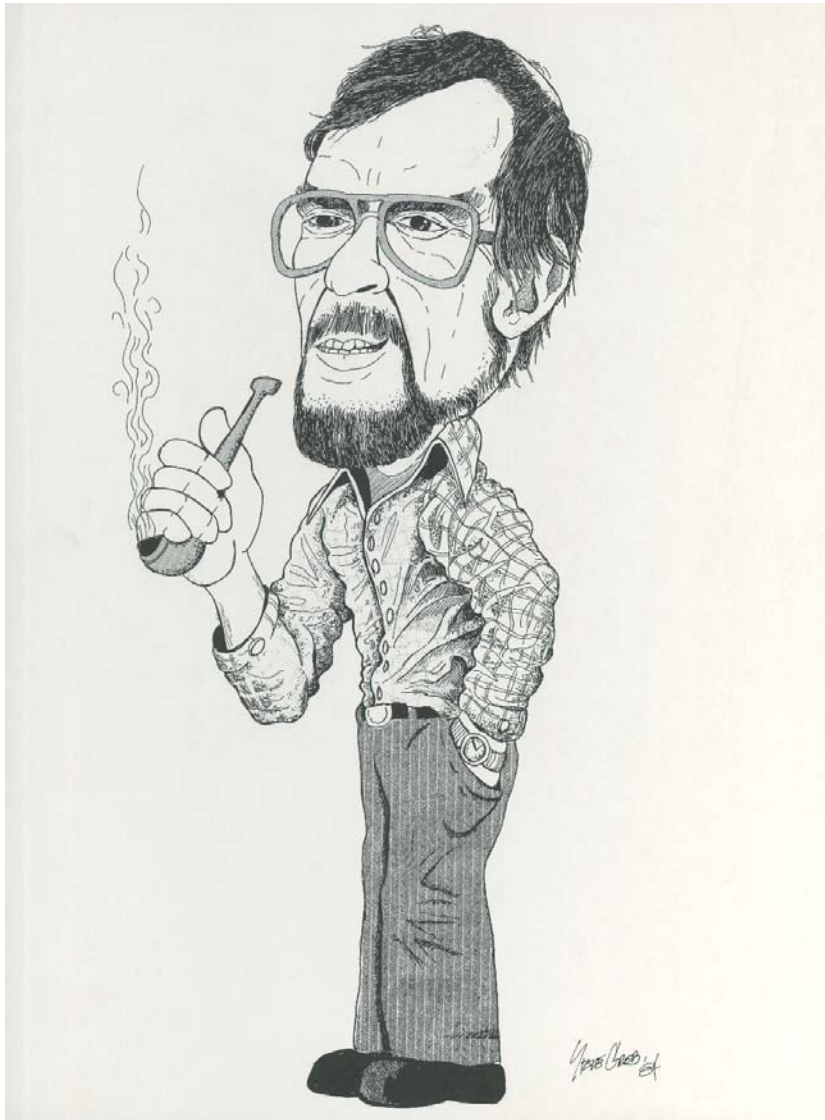

Thomas G. Roberts

Professor
(1955-1983)

Retired after 27
consecutive years of
service

John Thraikill

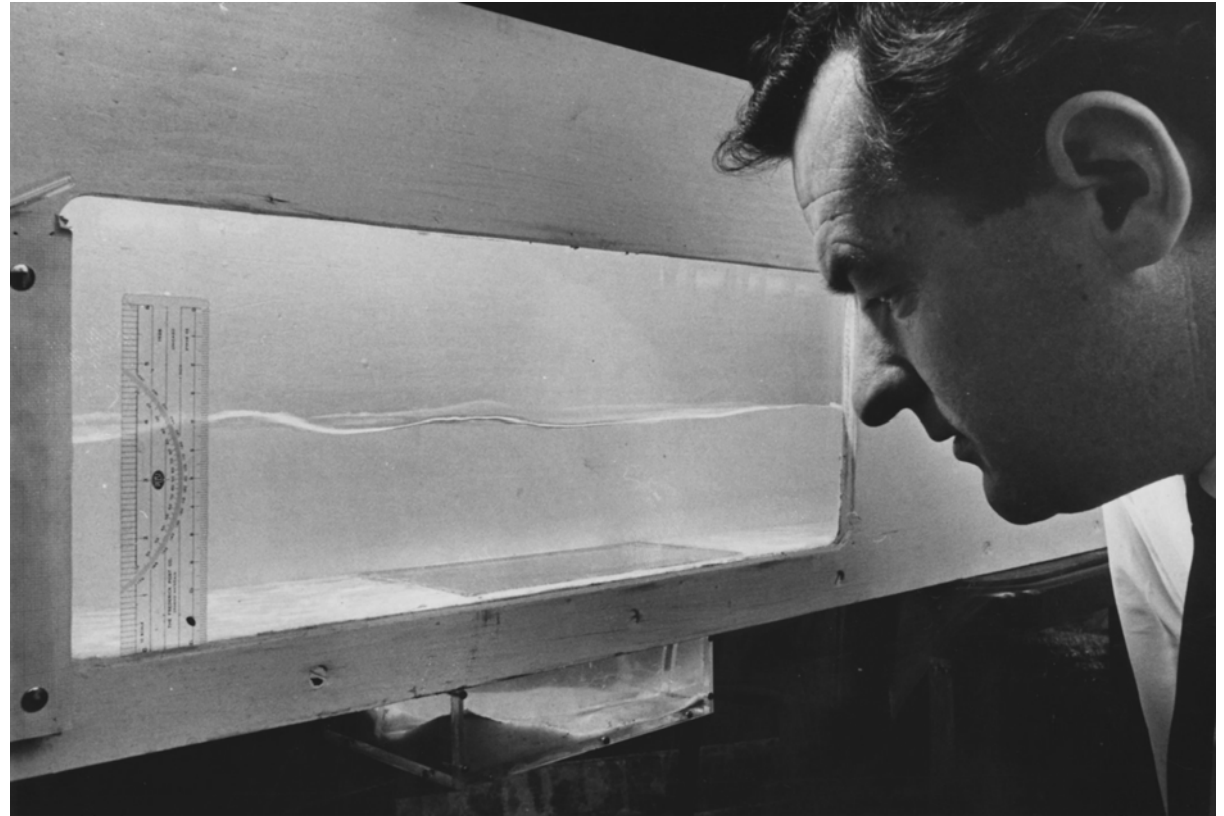

Professor
(1966-1992)

Retired after 27
consecutive years of
service

Bruce Moore

Professor
(1969-1995)

Retired after 26
consecutive years of
service

Survivors of the move to Bowman Hall, 1972

Ron Street

Professor
(1978-2000)

Retired after 22
consecutive years of
service

Nicholas Rast

Professor
(1981-2001)

Retired after 21
consecutive years of
service

John C. Ferm

Professor
(1980-1999)

Sue Rimmer

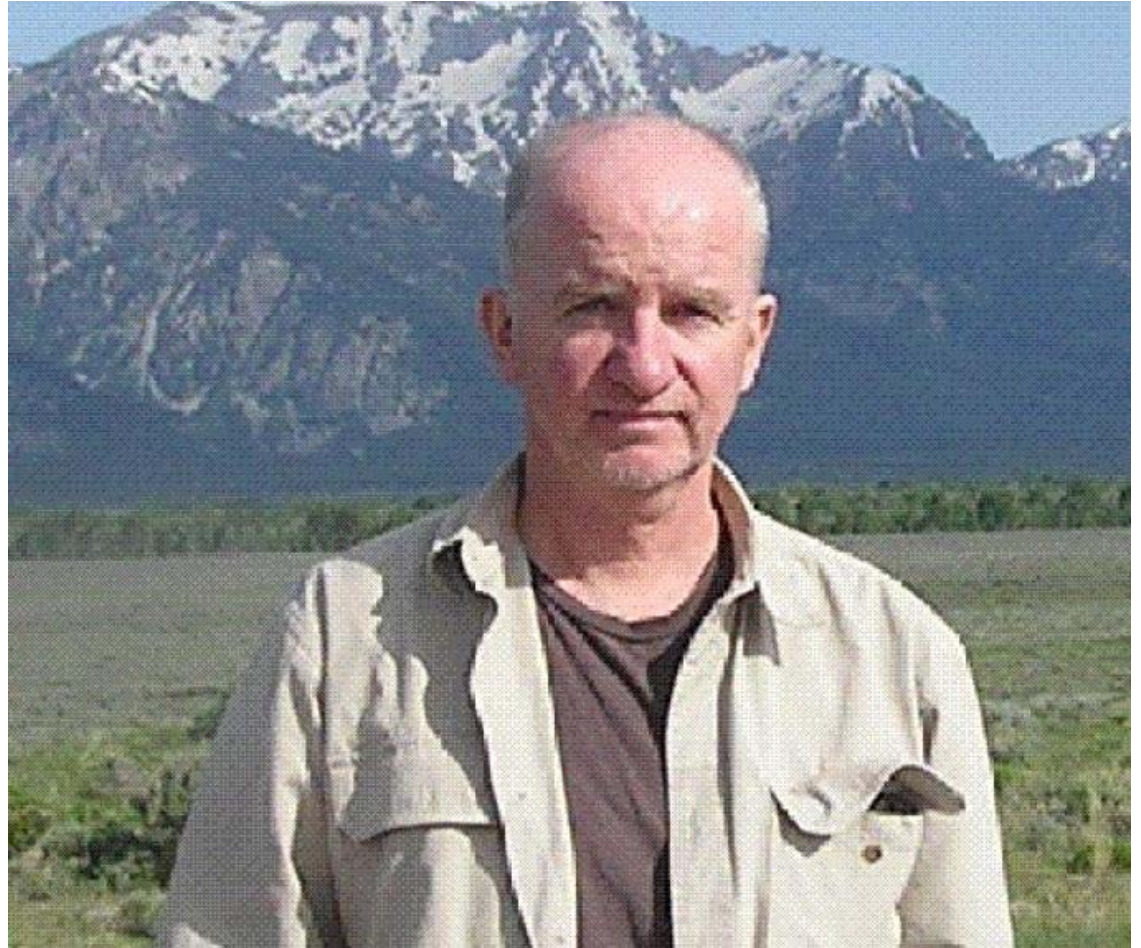

Professor
(1984-2009)

Retired after 27 years of
consecutive service

Kieran O'Hara

Professor
(1987-2011)

Retired after 24
consecutive years of
service

William (Bill) Thomas

Professor
(1991-2010)

Retired after 19
consecutive years of
service
